

Nama : Adi Jayaputra Kalyana
Dari : Binus University
Program : Master of Information Communication and Technology
Intake : Autumn 2012, University of Wollongong

Firstly, I had a plan to take Master of Information Communication and Technology program in University of Wollongong, Australia, but it required overall IELTS score 6.0 and i doubt i could reach the score. I did not feel quite confident in english, especially in speaking and writing skills. Thus, i took 50 hours lesson in SUN English and i was taught by really skillful teacher, Ms. Fitri. The class was so fun and exciting with 3 other friends and Ms. Fitri was very friendly and helpful, so i really enjoyed the class. Then, after i finished the whole class schedule, i took the IELTS test in SUN Kebon Jeruk and gratefully i got a good result and passed the university requirement. In the end, I would like to say thanks to SUN English and Ms. Fitri as my english teacher who had a big contribution in improving my english. Thank you !!
